### **What's New In Pulover 039;s Macro Creator?**

Pulover's Macro Creator is a lightweight application based on AutoHotkey that offers you a practical automation tool and script generator. It displays a comprehensive interface which allows you to record mouse movement, keyboard gestures, manage windows, files, controls and create If/Else statements. The application is made to be intuitive and for this to be valid, all the main features and functions of the application are kept available, in rather large numbers, in the top toolbars. Using Pulover's Macro Creator you can make scripts which you can then set to automatically perform various, tedious tasks that simply eat up time in your day and kill productivity. Whether you're a programmer who needs to insert custom code or a developer testing out application features and response this tool can easily help you. To be able to use Pulover's Macro Creator you don't need any programming knowledge because the application is designed to be easy to use. If you have a basic understanding of what a macro is and how you can use it, then simply clicking the record button and exporting the project is enough to obtain what you need. This doesn't mean that the application is limited to just basic scripts. With Pulover's Macro Creator you can join different macros under one script and from the preview window, copy the code to wherever you need it. It provides text, control, message box, window, image/pixel search, loop and label commands, along with variables and functions. Exporting a macro, you can set its name, the hotkeys that trigger the scripts, set the number of loops and even choose to block the mouse cursor so the macro runs without any interruptions. With the above to consider and much more to discover about Pulover's Macro Creator, it's safe to say that truly is a reliable and practical automation tool.
